

Label Unwinder, (UW4S, UW6S & UW4L, UW6L)

Rugged external Unwinder for labels, tickets and tags. The Unwinder is designed for unwinding the labels as the printer feeds it. The method of unwinding labels externally offers advantages in case you want to have control of the label roll. Unwinding is done neatly and efficiently. Besides, it is a silent operation.

Only L-series.

As the inner diameter of the paper bobbin often varies the diameter of the bobbin can be adjusted.

You can adjust the bobbin diameter by moving one shaft to another position to fit bobbins from 38 to 75mm.

Label Unwinder, (UW4S, UW6S & UW4L, UW6L)

Product Name: Unwinder UW4S
Product Description: Universal Unwinder Unit
Article no: 108-00-01(or specific Art. Nr. For adaption to a specific Printer)
Technical Specs:
Label Width (max): 135mm
Label Roll Size (max): 260mm
Unit Length (max): 200mm
Unit Width (max): 230mm
Unit Height (max): 190mm

Product Name: Unwinder UW6S
Product Description: Universal Unwinder Unit
Article no: 108-06-01(or specific Art. Nr. For adaption to a specific Printer)
Technical Specs:
Label Width (max): 180mm
Label Roll Size (max): 260mm
Unit Length (max): 200mm
Unit Width (max): 230mm
Unit Height (max): 190mm

Product Name: Unwinder UW4L
Product Description: Universal Unwinder Unit
Article no: 108-00-02(or specific Art. Nr. For adaption to a specific Printer)
Technical Specs:
Label Width (max): 135mm
Label Roll Size (max): 360mm
Unit Length (max): 350mm
Unit Width (max): 230mm
Unit Height (max): 380mm

Product Name: Unwinder UW6L
Product Description: Universal Unwinder Unit
Article no: 108-06-02(or specific Art. Nr. For adaption to a specific Printer)
Technical Specs:
Label Width (max): 180mm
Label Roll Size (max): 360mm
Unit Length (max): 350mm
Unit Width (max): 230mm
Unit Height (max): 380mm
